[ASSOCIATED PRESS TELEGRAM]
Washington, June 10.—Instruc-
tions were sent by the war depart-
ment today to Vera Cruz, directing
the transport Buford, enroute there for
refugees, to stop at Tuxpam, after
clearing Vera Cruz if there is room
aboard for more refugees.

The order was sent on request of
the state department, appeals for re-
lief of Tuxpam refugees having
come from Rear Admiral Capetlan,
commanding the American squadron
in the Gulf of Mexico. The number
or nationality of the Tuxpam
refugees was not stated.

Foreign refugees from Mexico City
numbering 450 crossed the break in
the railway to Pachuca yesterday en-
route to Vera Cruz, according to ad-
vices to the state department today
from Consul Sullivan at Vera Cruz.
Mr. Sullivan said officers in charge
of the relief expedition sent from
Vera Cruz reported ample facilities
to take all of the refugees to the coast.

The train probably will reach Vera
Cruz today or tomorrow morning
and the refugees be transferred im-
mediately to the United States trans-
port Buford. Consul Sullivan said
Carranza officials in Vera Cruz had
promised to facilitate the transfer.

A message from the Brazilian
minister in Mexico City said W. P.
Moats, an American resident, shot
and killed two Mexicans Tuesday
night while they were attempting to
rob his house. It was the fourth
time within the last few months that
Moats' house had been attacked by
robbers, the message said, and he
repeatedly had asked for police pro-
tection. Moats was arrested and the
Brazilian minister reported he had
obtained his release with difficulty.

A message from Special Agent
Carruthers, dated Gomez Palacio,
June 7, said Villa's secretary of for-
eign affairs had left for the front that
day to deliver President Wilson's
statement on Mexico to his chief
Carruthers added.

"Reports received yesterday indi-
cate that the battle is continuing
fiercely with all advance on Villa's
side."

A message from Monterey for-
warded to the Red Cross a request
for 20,000 cakes of hand soap, "to
improve the sanitary condition of the
poor."

EGG INSPECTORS WILL TOUR STATE TO FIND BAD ONES.

[ASSOCIATED PRESS TELEGRAM]
Columbus, June 10.—State
egg inspectors will start tours
of the state next week to dis-
cover bad eggs and to start
prosecutions of producers or
dealers who sell them. It was
announced today by Septimus
Mawrer, chief egg inspector.
Inspections will be made with
candling machines and heavy
fines are provided by law for
persons who sell bad eggs.
Regular inspections have
been considered unnecessary
heretofore this year owing to
cool weather and consequent
good preservation of eggs. Chief
Inspector Mawrer declared.

EITEL'S CAPTAIN DID NOT ESCAPE; NOW AT NORFOLK

HAD BEEN GRANTED LEAVE OF
ABSENCE AND RETURNED
ON TIME

Reported From Paris That He Had
Disguised Himself and Been
Arrested.

[ASSOCIATED PRESS TELEGRAM]
Norfolk, Va., June 10.—Captain
Thierichens, recently returned from
a leave of absence, and now is
aboard the Prinz Eitel Friedrich, at
Norfolk navy yard.

Third Surgeon Nolte is away from
the ship and an inquiry is being made.
At the navy yard it was said Third
Surgeon Nolte went away on leave
about a month ago. He failed to re-
turn on time and the matter was re-
ported to the navy department.

REPORTED ARREST ON AN ITALIAN STEAMER.

[ASSOCIATED PRESS TELEGRAM]
Paris, June 10.—The captain of
the German converted cruiser Prinz
Eitel Friedrich has been arrested
while disguised as a cook aboard an
Italian steamer, says an Agence
dispatch to the Havas Agency.

Commander Thierichens of the
Prinz Eitel Friedrich interned his
vessel at Newport News on the night
of April 7. He and his officers gave
their parole to the United States au-
thorities, thereby agreeing not to
leave American soil although they
had the freedom of the country.

The Prinz Eitel Friedrich entered
the harbor at Newport News March
10, ostensibly to make repairs and
take aboard supplies. This port of
refuge was reached by the German
cruiser after an adventurous cruise
in which she destroyed many mer-
chant vessels sailing under the flags
of the allies. Commander Thierichens
was expected to make a dash for
set after necessary repairs to his
ship had been completed, but is sup-
posed to have abandoned the plan
because of the careful watch kept by
British cruisers off Newport News
to prevent his escape. There has
been no previous intimation that he
had left the United States.

ITALIANS STOP MESSAGES SENT BY AUSTRIANS

[ASSOCIATED PRESS TELEGRAM]
Paris, June 10.—A report issued
by Admiral Thaon Di Riviel chief of
the Italian naval staff, shows that
Austrian wireless messages are inter-
cepted regularly by the Italians, says
a special dispatch from Rome. The
Italians have been enabled to obtain
this information, which is of im-
mense military value by the use of a
new device invented by Guglielmo
Marconi. The device is said to make
it impossible for the Austrians to in-
tercept Italian messages.

Inquiry Into Irregularities At Naval Academy "Exams" May be Prolonged a Month

[ASSOCIATED PRESS TELEGRAM]
Annapolis, Md., June 10.—When
commander F. A. Traut, head of the
department of modern languages at
the naval academy, resumed his tes-
timony today before the court of in-
quiry investigating irregularities in
examinations, he related a story
which he said had been told him by
Instructor Washburn, of the Eng-
lish department of the suspicious ac-
tions of three midshipmen. Wash-
burn said he had occasion on Christ-
mas eve to go to his office. On en-
tering the building, he saw three
midshipmen, one of whom was in the
act of closing the door of the office
of the department of modern lan-
guages. He hailed them, he said,
but the men were not caught and
their identity is not known. Com-
mander Traut said he learned only
indefinitely, a few weeks ago, of the
reported incident. The actual story
was told him yesterday by Mr. Wash-
burn.

to the system of preparing questions
from Secretary Daniels and the slow

CHARTER IS SUFFICIENT FOR A CITY

And Legislature Loses Any
Control Except to Limit
The Tax Rate

MORE HOME RULE
THUS GIVEN MUNIC-
IPALITIES

SAYS ATTORNEY GENERAL

In An Opinion Given That
a Charter City May Use
Surplus Funds Arising
From Water Works Op-
eration for General Ex-
penses—Business of Such
a City Untrammelled.

[ASSOCIATED PRESS TELEGRAM]
Columbus, June 10.—In giving an
opinion that any charter city may use
surplus funds from waterworks for
general expenses, Attorney General
Turner today indicated a liberal atti-
tude toward the question of how much
local home rule cities actually may
secure by adopting new charters. The
opinion given to the bureau of ac-
counting applies primarily to Dayton.
"The legislature has no control over
a municipality which has adopted a
charter," says the attorney general.
"Outside of limiting the tax rate and
the power to incur debts, providing
for the administration of justice
through courts, protecting public
peace and health, requiring reports as
to their financial condition and trans-
actions and providing for examination
of vouchers, books and accounts."
This interpretation of the home rule
amendment leaves any city under
charter government comparatively
free to carry on its "business func-
tions" in its own way.

"I believe the general rule will be
established, at least, as applied to
business functions of a municipality,"
says the opinion, "that the general
statutes of the state have no applica-
tion in a municipality operating un-
der a charter."

Dayton, Cleveland, Columbus, Mid-
dletown and Springfield have munic-
ipal charters.

College students may not vote at
the primaries August 10 in their
communities unless they make their
homes there, because the Fleming
students voting bill will not become
effective until a week after that date.
Attorney General Turner declared in
an opinion given today to Secretary
of State Hildebrandt. They may vote
at the November elections, however.

RESIGNATION POSTMASTER J. H. NEWTON

[Special to The Advocate]
Johnstown, O., June 10.—Con-
gressman William A. Ashbrook to-
day announced that Mr. Joseph H.
Newton, had tendered his resignation
as postmaster at Newark. His resi-
gnation has been sent to the post-
office department at Washington, and
will become effective July 1. Con-
gressman Ashbrook's recommendation
for Mr. Newton's successor will be
made in a short time.

LANSING HAS BEGUN HIS DUTIES IN THE STATE DEPARTMENT

[ASSOCIATED PRESS TELEGRAM]
Washington, June 10.—Acting
Secretary Lansing began his first day
at the head of the state department
by receiving many callers from the
diplomatic corps, who came to pay
their respects. He remained in the
quarters he has occupied as counsel-
or, and probably will not move to
the more spacious offices assigned to
the secretary for the present, at least.
Some of the foreign diplomats
have complained, Mr. Lansing said,
of being interrupted by newspaper
correspondents while making calls
in the state department building and
today the acting secretary asked the
newspaper men to grant an immu-
nity from interview to the diplomats
while they were in the building.

Mysterious Characters In Greek Royal Tragedy.

All Greek officials in the United
States and abroad have strenuously
denied a wild report, published in
Paris, that the illness of King Con-
stantine of Greece was caused by
nothing less than an attack by Queen
Sophie. The Paris report had it that
she, a sister of Kaiser Wilhelm, be-
lieved to be strongly friendly to Ger-
many in the war had stabbed the
king because of his leaning toward
the allies.

The precise nature of the king's
illness is a mystery. While it is an-

Eight British Vessels Sunk By German Submarines But Crews of All Were Spared

patch received here from Mada Lusa
says the crews of the British traw-
lers Qui Vive and Edward, which
have been sunk by German subma-
rines, were rescued by a Dutch
steamer and brought into Mada Lusa.

The Grimby steam trawler Not-

Germany Claims Right to Destroy Any American Vessel Carrying Contraband, If Damages Are Paid

[ASSOCIATED PRESS TELEGRAM]
Washington, June 10.—The Ger-
man government's reply to the
second American note regarding the
sinking of the American ship William
P. Frye by the Eitel Friedrich re-
ached the state department today.
Acting Secretary Lansing stated its
contents would not be made public
until the reply had been studied.
Cable advices from Berlin have
stated that Germany's reply reiterates
the stand taken in its original note
acknowledging liability in the Frye
case and reiterating it to a prize
court. This government urged that
the matter be transferred from a
prize court to the imperial German
embassy here in order to expedite
settlement.

Germany's latest note makes the
far-reaching claim of a right to de-
stroy any American vessel carrying
contraband, while agreeing to pay
damages for the act.

Two points made by the United
States are rejected by Germany. One

was the statement of the American
government in its note of April 28
that prize court proceedings meant
unnecessary delay, all matters con-
cerned being susceptible for prompt
settlement through diplomatic chan-
nels, and the other was that the de-
struction of the Frye was "unques-
tionably a violation of the obligations
imposed upon the imperial govern-
ment under existing treaties between
the United States and Prussia."

Under the Prussian-American
treaty of 1828, the binding force of
which was admitted by Germany in
its note of April 5, the right of citi-
zens of either country to ship arms
and ammunition as well as all other
kinds of contraband in their own
vessels was granted in time of war,
but each party had a right to detain
such contraband and payment made
for it if confiscated.

The note from Germany today en-
larges upon the treaty of 1828 by
claiming that while the treaty did
not specifically permit the destruc-
tion of a ship, nevertheless, its con-

W. J. BRYAN IN ANOTHER STATEMENT

Which Is Now In Prepara-
tion to be Ready for Pub-
lication Friday

WILL FURTHER EX-
PLAIN TO PUBLIC HIS
ATTITUDE

CAUSING HIM TO RESIGN

Many Officials Thought For-
mer Secretary's First
Statement Was Unfortu-
nate During Discussion
With Germany and Ad-
vised Against It—Lansing

[ASSOCIATED PRESS TELEGRAM]
Washington, June 10.—Former Sec-
retary Bryan is preparing another
statement upon his attitude on the
situation between the United States
and Germany which he intends to
issue for publication with the ap-
pearance of the text of the American note
in tomorrow morning's newspapers.

William J. Bryan's resignation as
secretary of state and the circum-
stances leading up to it still held the
center of interest in Washington to-
day, overshadowing even the dis-
patch of another note to Germany.
Its effect on the nation's foreign re-
lations and also its political conse-
quences afforded widespread specu-
lation.

Chief attention was concentrated
on the effect of Secretary Bryan's
personal statement giving the rea-
sons for his resignation. In that
statement Mr. Bryan announced his
intention as a private citizen of sub-
mitting to the public for judgment
his view of what the American policy
toward Germany should be.

The propositions which Mr. Bryan
expects to urge upon the people are
that an offer should be made to
Germany to submit the questions in
dispute to an international commis-
sion for investigation during a year's
time and that meanwhile American
citizens should by proclamation be
warned not to take passage on bel-
ligerent ships or an American vessel
carrying ammunition. The sugges-
tion, Mr. Bryan explained, had been
submitted to the president, who had
not felt justified in adopting them.

It is upon these propositions that
Mr. Bryan hopes to create public senti-
ment in the United States that will
make war with Germany impossible.

Mr. Bryan's statement, some of-
ficials thought, was unfortunate com-
ing at a time when the discussion
with Germany was in progress.
Some members of the cabinet had ad-
vised against the issuance of the
statement.

There was considerable specula-
tion here today as to who would suc-
ceed Mr. Bryan. While the presi-
dent is not expected to make a
choice for some weeks, it was be-
lieved that Robert Lansing, counselor
of the state department, who has been
commissioned as secretary ad inter-
im, eventually would receive the per-
manent appointment. Mr. Lansing
began his first full day as secretary
today.

Likewise, Mr. Bryan began today
his first full day as a private citizen.
He spent the day quietly, devoting
much time to reading and answering
telegrams of congratulations from
friends all over the country. Mr.
Bryan has not determined definitely
his plans for the future.

Text of American Note to
Germany Awaited With

Report Progress.

[ASSOCIATED PRESS TELEGRAM]
London, June 10.—Careful reading
between the lines of the various of-
ficial announcements of the last 12
hours leads British observers of the
situation on the continent to the be-
lief that the weary Russians have
been successful in gaining a breathing
space along the eastern front. Further-
more, evidence of the stubborn oppo-
sition which the Austro-Germans are
said to be making near the center of
the line in Galicia, is declared here
to exist in the statement from Petro-
grad that 2,000 Austro-German pris-
oners have been taken in a series of
counter attacks near Przemyśl.

According to Russian reports, the
Austro-German offensive in south-
east Galicia has not been able to
cross the River Dniester at any point
other than Zurawna, which is 40 miles
from Lemberg, and which they
reached last Sunday.

Berlin contradicts this with the
statement that the right wing of the
army under General von Linington
has advanced ten miles further and
occupied Stanislaw, an important
railroad center.

In the west, the French make their
report of slow progress, accompanied
by the repulse of German counter
attacks. The French claim and Ber-
lin admits that the French now are
in occupation of the entire village of
Neuville St. Vaast, while only a frac-
tion of "the labyrinth" is left in Ger-
man hands. From other portions of
the French front comes reports of
minor advances.

According to Vienna, the efforts of
the Italians to cross the river Isonzo,
near Corizza, has been repulsed after
a serious engagement. It would appear
evident that the Italians have met the
first difficult problem of their inva-
sion of Austria in this endeavor to
cross the Isonzo, although they claim
to have a foothold at some places on
both banks.

The resignation of William J. Bry-
an as secretary of state is still an
absorbing topic of discussion with the
English press. The text of the Amer-
ican note to Germany is awaited with
great eagerness.

FRENCH REPORT MORE PROGRESS ON WEST FRONT

[ASSOCIATED PRESS TELEGRAM]
Paris, June 10.—The French war
office this afternoon issued a report
on the progress of hostilities which
reads:

"There was all last night a very vio-
lent artillery engagement in the re-
gion between Lorette and the sugar
refinery at Souchez. At 9 o'clock at
night the enemy delivered an attack
which was however, at once repulsed.
"The Germans bombarded Neuville
St. Vaast, but they made no endeavor
to recapture it. We made further pro-
gress yesterday in 'the labyrinth.'"

"In the vicinity of Hebuterne, we
maintained all our advance on a front
1800 yards long and for a depth of
about 1000 yards.

"There is nothing further to report
from the remainder of the front."

RUSSIANS SUNK ONLY ONE SHIP BERLIN REPORTS

[ASSOCIATED PRESS TELEGRAM]
Berlin, June 10.—(By wireless to
London.)—Only one German ship, a
collier, was sunk by a Russian subma-
rine in the naval engagement of
June 5, in the Baltic sea off the
Gulf of Riga, according to reliable
information received here today.

Denial was made of a report pub-

Russian submarines or that any other
damage was done.

aged by a Russian submarine in the
recent naval engagement in the Bal-

DECREASE

IN LEVEL OF PRICES PAID AMERICAN PRODUCERS DURING MONTH OF MAY

Yet the Average is Still Much Higher June 1st Than for Years Before.

(Associated Press Telegram) Washington, June 10.—The level of prices paid American producers for the principal crops decreased about 1.8 per cent, during May, the department of agriculture announced today. Heretofore the level had increased about 3.3 per cent, during May. On June 1, the index figure of prices was about 6.1 per cent, higher than a year ago, 21.5 per cent, higher than two years ago and 6.0 per cent, higher than the average of the past seven years on June 1.

The prices of meat animals—hogs, cattle, sheep and chickens—to producers increased 3.2 per cent, from April 15 to May 15; in the past five years prices decreased in last period 2.6 per cent. On May 15, the index figure of prices for these meat animals was about 6.8 per cent, lower than a year ago, 3.0 per cent, lower than two years ago, but 1.0 per cent, higher than the average of the past five years on May 15.

AUNT SALLY'S ADVICE TO BEAUTY SEEKERS

K. C. P. asks: "Will you tell me how to get my hands white and soft? They have become rough and are so dark in contrast to my arms." The method mentioned in reply to those should bring the desired results. Wear gloves to prevent soiling the bed linen. If N. A. writes: "How can I reduce a double chin? Also how get rid of crow's feet." Use a wash lotion prepared by dissolving 1 oz. powdered salicylic acid in 1 pt. witch hazel. This softens the skin, tending to disperse wrinkles as well as blemishes about the chin or elsewhere. Those says: "My freckles are worse than ever this year. made doubly conspicuous by a pallid complexion. Is there any cure?" Ask your druggist for an ounce of metacized wax, apply nightly like cold cream, removing in the morning with warm water. As the wax gradually absorbs the lifeless scale, not only will the freckles vanish, but the new and younger skin which appears will have a healthy color. Probably you will need to continue treatment a couple weeks or so. —Woman's Realm

CORPSE FOUND WAS NOT THAT OF VANDERBILT

(Associated Press Telegram) London, June 10.—The representative in London of the Vanderbilt family received word from Queens-town this afternoon that the body recovered on the coast of County Clare last night was not that of Alfred Gwynne Vanderbilt.

(Associated Press Telegram) London, June 10.—A report has been received here from Ireland that the body of Alfred Gwynne Vanderbilt, who lost his life, May 7, when the Lusitania went down, has been found.

The body was found by an old woman who was collecting sea weed on the Clare coast, near Doolin, north of the Cliffs of Mohr.

A watch in the clothing is said to bear the initials of Mr. Vanderbilt and papers in the pockets would appear to identify him.

The body was washed ashore last night. This information came to London in a dispatch to the Exchange Telegraph company.

Of the 1100 persons who lost their lives in the sinking off the coast of Ireland by a German submarine of the liner Lusitania, the bodies of a large proportion never were recovered.

Among these was Mr. Vanderbilt's. Members of the Vanderbilt family conducted a persistent search along the coast for many days, chartered tugs to patrol waters adjacent to the old head of Kinsale. Rewards were also offered.

An Artist's Impromptu Solo.
Pierre Garat, the singer and exquisites of Napoleonic France, was not merely a glass of fashion and a wonderful, self instructed singer, but an artist devoted to his art. "But is the following," asks Bernard Mall in his biography, "an example of sincerity in art or of love of attracting attention?"

Company had supplied him with a "romance" to be set to music. When ever the two met Garat replied, "I have not hit upon an idea as yet." One day Company was walking down the Rue Neuve des Petits Champs. Hearing a sound of some one running up behind him, he turned. It was Garat, who seized him by the arm, dragged him up the stairs of a neighboring house and, halting on the first landing, exclaimed, "I've got it!" At once he began to sing the romance through at the top of his voice. The inhabitants of the house began to open their doors, heads were projected over the banisters, finally they began to approach. But Garat, having finished, tore down the stairs like a monkey, dragging the bewildered poet with him. —Youth's Companion.

ULTIMATUM

TO GERMANY IS EXPECTED BY BERLIN NEWSPAPER OF AMERICAN NOTE

Another Believes Change of Policy Resulting from Resignation Will be Favorable to Germans.

(Associated Press Telegram) Berlin, June 10.—Via London. —In discussing the resignation of Mr. Bryan as secretary of state, the Tageblatt, while not imputing to him pro-German sympathies and declaring that at times he even has seemed less friendly than President Wilson, assumes that his political experience "recalled from sharp action."

Germany, a Catholic organ, thinks Mr. Bryan's retirement means an important change in the American policy which probably will be favorable to German interests.

The Vorwaerts and the Tageszeitung are the only morning newspapers in Berlin that comment on the resignation of William J. Bryan.

The Vorwaerts says Mr. Bryan always has been a Utopian peace enthusiast and that his leaving the cabinet now means undoubtedly that the note in the form planned by President Wilson will not lack much of being an ultimatum to Germany. We therefore have to do here with an event of the greatest importance, says the Vorwaerts.

Count von Reventlow, in the Tageszeitung repeats that Germany cannot recede in any degree from the standpoint already taken no matter what President Wilson's note may demand. Even the imputation that Germany could consider abandoning her submarine warfare, this writer declared, would be considered by the entire country as an insult.

Die Post, in its issue of today calls attention to the sailing of steamships with both munitions of war and passengers on board, saying in this connection:

"Our submarines must destroy these munitions and whence they come and who does a good business in them is immaterial. If England does not hesitate to carry passengers on board the same ship with this war material, it is not possible to us to fulfill our duties without destroying innocent human lives. The responsibility for the mishap rests on England alone."

FIRST TOUR OF LICKING COUNTY BY MERCHANTS

The first of a series of tours of the county under the auspices of the Newark Merchants Association started this morning at 8:30 from Main and Second streets. Six automobile loads left that point for Granville, Alexander, Johnstown and Croton. It is expected that the tour will consume most of the day. Stops will be made in the towns mentioned and probably at intermediate points. The six machines contained about 30 persons. The leading machine also carried two trumpeters whose music attracted the attention of residents of the country through which the party passed.

Those in the party were F. C. Evans, F. L. Jones, George Hermann, J. R. Speck, D. B. Kunninger, C. E. Jones, C. F. Coulter, M. C. Kent, Edward McDonald, H. W. Johnson, O. L. Wolff, G. E. Besanceney, F. S. Neighbor, Wesley Montgomery, H. H. Harris, Edward Williams, Trevor Davies, J. L. Kreig, A. S. Stephan, C. H. Spencer, J. A. Kidwell, A. R. Lindorf, P. G. Applegate and Secretary Haas.

CALL ON CONGRESSMAN.
Johnstown, O., June 10.—The auto touring party of the Newark Merchants Association arrived here at noon today where luncheon was enjoyed at the hotel. Enroute to this city the merchants visited Granville and Alexandria where the party was received cordially by residents and business men alike.

Early on the tour it was made clear that the trip is not made by Newark merchants from any selfish motive to boost Newark alone. It is a Licking county movement and Licking county consumers are being urged to spend their money within the county.

This afternoon the party paid their respects to Congressman W. A. Ashbrook and visited the local merchants and residents.

Literature is being distributed along the route inviting the co-operation of all Licking county people in making Licking county the best in the state. The members of the party were unanimous in the opinion that the trip was proving successful.

At 2:30 o'clock the party left for Croton where the same program will be continued. The trip back to Newark will be started about 4 o'clock.

Our Sixth Anniversary A Worth While Celebration

SIX YEARS AGO next Saturday this store opened its doors to the people of Newark and vicinity for the first time. We had no misgivings for its future success, for we commenced in the right way—selling only the highest qualities of merchandise at economical prices.

Some people were skeptical, others doubted and some believed we were merchandising inferior goods. These various beliefs were dispelled in short order. A good and worthy thing is bound to make itself known and so it was with this store. Today we enjoy the confidence of thousands of Newark people. They consider this store their store, for here their wishes and desires are fulfilled in a manner that makes every purchase a bundle of satisfaction.

The Davies store, long ago, announced itself a Standpatter for sane merchandising, a store where inflated values cannot exist, where the entire sales force from manager to bundler is given the freedom of censorship on any deviation from established principles.

Our Sixth Anniversary Sale commences Saturday morning. It will be a gala occasion, a tangible reminder, a definite expression of our appreciation of the patronage that has made our progress and success possible.

Everywhere through the store is earnest endeavor and co-operation to make this Sixth Anniversary the biggest, best and most worth-while celebration that the Davies store has ever announced.

Come—help us celebrate. You will find the season's most desirable merchandise considerably underpriced. The next two weeks will be profitable ones for those who shop here.

Sale Starts Saturday, June 12th

MANEUVERING TO ESCAPE AUSTRIAN AIRCRAFT, ITALIAN AIRSHIP WAS STRUCK.

And Falling Into the Sea, the Crew, Uninjured, Was Made Prisoners of War.

(Associated Press Telegram) Berlin, Via London, June 10.—A correspondent of the National Zeitung has sent to his newspaper the following description of the destruction of the Italian airship Citta Di Ferrara by the Austrian naval aeroplane L-48, while returning from an attack upon Fiume the morning of June 8.

"Reports were received early Tuesday morning," the correspondent said, "that a hostile airship had been seen heading toward the sea. The L-48 was sent out to investigate, with orders to attack if possible. The pilot was Marine Lieutenant Glasing, while the observer was Marine Cadet Von Fritsch. As soon as the airship was sighted the aeroplane began to ascend, and gaining an advantageous position above the airship, opened fire with a machine gun and a rifle, using a special projectile designed to set balloons on fire. The airship maneuvered wildly in an attempt to escape. It was descending

all the time and finally was almost at sea level.

"The men on L-48 continued firing. One of their shots set the Italian airship afire. The hull was burned and the gondola fell into the sea. An Austrian torpedo boat was in the vicinity and in a few minutes the two officers and five men composing the crew of the airship had been rescued. None of them was injured and they were made prisoners on board the torpedo boat. Then what was left of the airship went to the bottom."

ESTABLISHED IN 1820.

Entered at Second Class Matter March 10, 1882, at the Postoffice at Newark, Ohio, under Act of March 6, 1879.

It is possible to give a newly married couple a good send-off, even if you don't throw rice in their eyes so that they have to visit an oculist the next day.

In spite of the flattering terms of the graduate's diploma, the bank president doesn't usually rush out to open the door for him when he comes around seeking work.

Sporting Inquirer is informed that the League of Nations that Mr. Taft proposes to organize will not compete with either the National, the American, or the Federal league.

In many places the girls are to graduate in inexpensive gowns made by themselves. The graduate may do the planning, but it is suspected that Mother cuts, sews, and fits it. The Newark plan—cap and gown, is the correct one.

Governor Willis is in receipt of a letter of complaint from a Washington man who had his pocket picked while he shook hands with the governor on Memorial Day. At that he has nothing on some thousands of taxpayers in Ohio who shook hands with the present governor last fall.

"The New Ohio."

Regardless of the fact that political defeat was administered to the makers of "The New Ohio," their work is looming up greater day after day, and especially in comparison with the destructive and react-work of the Willis legislature. Other states are constantly looking to the Cox laws of Ohio for guidance. Within the past week the chairman and counselor of the Colorado industrial commission, and the chairman of the tax committee of the New York constitutional convention, were in Ohio, studying the principles of the present Ohio laws, which are everywhere recognized as models. In addition to this there passes scarce a day without demand from some civic association for copies of "The New Ohio" used last fall by the Democrats as a campaign document, but which in subject matter was simply a review of the laws of the Eightieth general assembly and their operation. These facts are the more remarkable in the face of present conditions in this state.

Dreadnought Locomotives.

Quite important is the announcement that the Great Northern railroad has engines pulling a mile of loaded freight cars. These huge locomotives are in use in the state of Washington, between Spokane and Leavenworth. They are described as having seventeen driving wheels apiece, and two separate boilers. Two years ago James J. Hill suggested, as his ideal of power and transportation efficiency, a locomotive capable of hauling 100 loaded cars. These are hauling 134 cars apiece—the equivalent of about 500 cars of the ordinary European type. Their very power has proved to be a

THE NEW HAT.

Man buys himself a new straw hat. It often leaves him busted that, when he has paid the price; and then, all swollen up with pride, he goes around with stately stride, and knows he's looking nice. He's thinking, when he's thus arrayed, that every widow, every maid, will say he's just too sweet; with vain imaginings like these he runs against the busy breeze that scots along the street. The zephyr takes his virgin hat and slams it down and knocks it flat, and rolls it on its brim, and as he tries to run it down, most all the idiots in town are idly joshing him. Along the avenues and pikes, at record breaking gait he hikes, a cloud of dust behind; the widow and the winsome maid behold him as he hits the grade, and laugh until they're blind. The hat goes scooting forty miles with scores of other errant tiles, before he runs it down; and then it is a dismal wreck; the brim is flopping round his neck, his hair sticks through the crown. The lid that made his spirit proud, that made him scorn the common crowd, is spoiled beyond recall; while such disasters come to pass, we plainly see all flesh is grass, pride goes before a fall.

Suffrage in Denmark.
The King of Denmark has signed the new Constitution abolishing special franchises of the wealthy classes and at the same time conferring the franchise on women. The suffragists at least will now agree there is no longer anything rotten in Denmark as respects its Constitution.—New York World.

Keen Feminine Eye.
Not merely do the women seem to relish housecleaning but they claim they can see a difference in the appearance of the rooms after the furniture is all put back.—South Bend, Ind., News-Times.

Farmers and Autos.
There can be no question as to the great extent to which the farming element in certain parts of the United States is drawing upon the automobile output. A recent estimate has it that 50 per cent of the 1,750,000 motor cars in the republic are owned by farmers. This percentage, it is claimed, is increasing annually. Comment was occasioned last summer by the great number of automobiles to be seen in Western country towns on market days and also by the almost entire absence of horse vehicles at farmers' conventions. If reliance may be placed on the statement that American farmers will take 60 per cent of this year's automobile output, there is reason to believe that comment of this character will not show a decline in 1915.—Christian Science Monitor.

Russia's Weakness.
Russia rules one-sixth of the earth. Her area is three times as great as that of the United States. Yet having taken Przemysl she was unable to hold onto it. The Russian military organization is a good deal of a sham. But for the enormous weight of its numbers it would have been put out of business for good long ago, as it was in China by the Japs some years since.—Pittsburg Dispatch.

Germany's Military Strength.
How many fresh troops has Germany left? The most likely estimate is one given by The Temps. Based on the official census for December 1, 1910, the number of German males aged from 18 to 50 at the present moment is computed at 15,785,377. Probably 25 per cent were not taken for military service. The figure thus obtained, viz., 11,838,034, must be further reduced. Deaths since December 1, 1910, bring it down roughly to 11,000,000. Two million men are employed in civilian labor. Finally, the casualties since the war may amount to 250,000 prisoners or missing, 600,000 killed, 700,000 wounded and permanently incapacitated, 700,000 wounded who can return to the front. Total loss, 1,500,000 men. Thus at the present moment Germany probably possesses a total strength of 7,450,000 men, leaving a reserve of about 3,000,000 to draw upon, supposing that 4,500,000 are now at the two fronts.—London Telegraph.

People Not Blindly Partisan.
The Salem News thinks that the fact that Auditor Donahay is a democrat will vitiate any charges he may make against the Republican legislature for irregularity of expenditures. That might have been once but the people are not so blindly partisan now. They are apt to believe the man who deals in facts, whatever his politics.—Columbus Dispatch.

Human Progress—A Contrast.
The favorite figure used by most men to emphasize the progress humanity has made is the Cave Man, utterly without the conveniences of life and supposedly without any of the feelings for higher things that characterize modern man. While the debacle of the current war is on, with its ever-recurring stories of barbarities, hideous cruelty even to the unarmed and its destruction of art monuments, it is interesting to contrast for the moment some of the newer knowledge we are acquiring of the Cave Man as he was. In a recent number of Science, Professor MacCurdy, of Yale, tells the

story of some late discoveries in caves in the Pyrenees. The art objects unearthed in the Caverne des Trois Freres show artistic taste of the highest order. The very latest finds include figures of the bison modeled in clay, as well as striking pictures of the animals that were hunted, of an art quality seldom surpassed in human history.

Manifestly some other comparison than that with the Cave Man will have to be made hereafter when we want to contrast the civilization of the earliest and the latest periods of human progress, at least as it is supposed to have occurred.—New York Herald.

China and Japan.
China, as it is pointed out by one of the commercial commissioners now visiting the United States, is in no position to resist Japan because it has always been of a conspicuously pacific disposition. In China the highest honors go to scholarship; the merchants have a high status and the soldiers constitute the very lowest class. In Japan the military caste has always been the highest and the mercantile caste the lowest, which has been offered by Japanese writers as an explanation of the complaints of a low standard of commercial honor in Japan. This contrast between the big and little Asiatic nations does not teach us to adopt militarism as a national policy but it does show the importance of keeping prepared for emergencies in a wicked world where there are predatory nations as well as predatory individuals.—Philadelphia Record.

Time to Quit.
When two people's chief delight is in each doing what the other doesn't want done, it's time they divided the wood-pile and went their separate ways.—Judge.

She Has Hopes.
"Is she going to have a big wedding?" "I guess so. She's cleared out two rooms to hold the presents."—Detroit Free Press.

But He Probably Would.
Wife (sentimental)—"Egbert, what would you do if I were to die?" Egbert (ditto)—"I should go mad, my dear." Wife—"Would you marry again?" Egbert—"Well, I don't think I should go as mad as that."—Sydney Bulletin.

Our Own Popular Songs.
The flowers was blooming gaily as a girl choked back a sob
And went into a paint store and applied there for a job.
She had been out of work for weeks, and she was feeling faint.
And so the boss gave her a job at filling cans with paint.
The paint was red, and this poor girl knew that her face was white.
So now and then she'd take some paint and make her cheeks look bright.
She worked all day and toiled real hard, for she did need that place.
But when she'd fill a can with paint, she'd put some on her face.
That night, when work was done the boss checked up the cans she'd filled. And found six gallons of red paint was either lost or spilled.
He hunted for the missing paint, as any man would do.
Until he saw the girl's bright cheeks—and then he got a clue.
He got some turpentine and then the girl's cheeks he did rub.
And when the paint was softened it ran down into a tub.
And soon the whole six gallons that was missing was right there.
"You're fired for stealing this here paint!" the boss then did declare.
The poor girl's face was pale again, and she did heave a sigh.
And, as she faced that cruel boss, she did make this reply:
Chorus:
"I am an honest working girl, and your words bring disgrace!
I borrowed them six gallons to put color in my face.
And I would never steal no paint from any stinky socks
Who'd use a girl who tried to put some roses in her cheeks!"

"I do not believe that the President will care to assume entirely the cares and responsibilities and problems of our international relations but that he will gladly divide the burden with Congress," declared Senator Cummins as he predicted an extra session not later than September. And then he listened in vain for applause.—Indianapolis News.

Harvest Hands.
The wheat harvest is about to begin. It may be as big as last year's. Anyhow, there's a lot of wheat ready for the reaper in Oklahoma, and the state has sent out a call for 18,000 harvest hands. In order, however, to avoid swamping the market, and duplicating some of the unfortunate experiences of last year in the grain belt, prospective harvesters had better communicate with the commissioner of labor at Oklahoma City. There's going to be a concerted effort this year by the federal and state labor bureaus all over the west to adapt the supply of farm labor to the demand.

\$500,000 Better

The improvements lately added to Goodyear tires will cost us \$500,000 this year—just this year's betterments alone.

Yet this year's reductions will save our users in 1915 about \$5,000,000, we figure.

And our big price reduction on February 1st was our third in two years. The three total 45 per cent.

Our Extras
This half-million dollars we add to our tire cost means better tires than ever. It goes largely into extra rubber.

Then remember this: Good-year Fortified Tires contain five costly features found in no other tire. They contain

other features found in but few tires.

If we omitted those extras, our probable output this year would cost us \$1,635,000 less. We could make that much extra profit.

What of You?
Goodyear rules Tiredom because of those extras. It outsells any other tire. It is today outselling our output.

These features are hidden. Tires that lack them look about like Goodyears. But they don't wear like Goodyears. If they did, we would omit them too, and save that \$1,635,000.

Don't you think such extras are worth asking for? Any dealer will supply you.

Pretty teeth, or at least white teeth, are essential to beauty when beauty smiles. The teeth of most women are sufficiently far apart for small particles of food to lodge between them and if these particles are not quickly removed, their decomposition begins, injurious acids are formed and a decay of, first the enamel and then the teeth proper begins.

The ill-bred custom of using a toothpick before people, is not to be considered for an instant, but it is advisable to retire to one's room or to the bath room as soon after a meal

as possible and there use both toothpick and dental floss to remove any particles of food adhering to the teeth, first brushing them with hot water.

One must take care, too, that the brush is the right size. If it is too large it will not reach far back into the mouth and well up into the gums. Have it rather short and not too wide. A good tooth powder or paste should be used at least once a day. Good teeth mean good health and good temper. It hardly pays to neglect the teeth when one has ever realized the tortures of toothache.

NOW YOUR CORNS MUST GO

Dr. Hunt Discovers Method that Kills Corns by Penetration. ONLY 10c.

That old corn, that stubborn corn, that soft corn, that sore corn, the corn that will come back, you can now get rid of it once and for all, for Dr. Hunt of Sidney, Ohio, has discovered the scientific principle that makes corns go easily and painlessly.

Dr. Hunt's New Corn Cure does its work by penetration. That is Nature's own way. Goes to the very root of the corn. Corn lifts out, root, body and branch in two days. No paring. No dangerous caustic ingredients. No liquids to dry out. No bulky pads or greasy salves. Dr. Hunt's New Corn Cure comes in ready-to-apply plaster form. Trim plaster exact size of corn and apply. More than two applications are seldom necessary for the most stubborn case. Your corn eases up at once. The soothing penetrating ingredient works without discomfort. In two days you have no corn. This is a doctor's discovery. The result of life-time study.

"Over the Wire"

Grace, I'm nearly dead—I've shopped and shopped today and all I thought was one afternoon dress.... You know we open the house at Piping Rock next week and I'm nearly frantic.... I simply haven't a thing to wear.... Oh, it's quite simple.... Yes, I got it! Madame's.... the skirt is of blue and white striped taffeta, very full, of course and quite short.... Thank Heavens, I have good ankles!.... The blouse is of organdie embroidered with sapphire blue beads and falls over the skirt—it is slashed around the waist and a broad sash of that delicious shade of terra cotta runs thru, crosses the hips and ties in a big splashy bow.... Not tonight, Grace, I was going to the theatre with Jack but I simply had to beg off.... If you could see my schedule for tomorrow you'd know why.... I'm all timed up like a railroad train....

He Got the Apples.

"Once upon a time," began the teacher, "two little brothers started to Sunday school one Sunday morning. Their way led past a fine orchard, where the trees were bending down with ripe, luscious apples. One of the brothers proposed going into the orchard and getting some fruit, but the other refused and sped away, leaving his companion greedily devouring the apples.

"Now, it happened that the owner of the orchard saw them, and the next day rewarded the good boy who refused to steal his apples by giving him a shilling. He got a prize for his honesty, and what do you suppose the other boy got for his dishonesty?" "He got the apples!" yelled every member of the class.—Exchange.

Futuristic lace motifs are sprinkled thickly over net, which is also barred with insertion and edged with lace about the hem of the skirt. The blouse ends in a wide belt, with futuristic blue flowers showing bravely upon it. The collar and cuffs are of lace and the blouse of net, the entire costume worn over a pink satin princess slip.

You can be just as fluffy as you please this summer, in fluffiness, becoming to your particular style of beauty, or you may be prim and old-fashioned (that's one of the newest fashions) or simply a trim tailored girl. Fashion is very generous this year. So says Miss Reilly, authority on every big and little thing relating to women's fashions, who is here from New York dispensing just the information that Newark women are eager to have.

Newark women are charming," Miss Reilly, who has been here a week already, and should be in a position to judge, for women here have been eagerly seeking consultation with her. "And they are certainly interested in my subject. They want to know the very latest bits of fashion gossip, and they want to wear the newest styles, but they do want to be sure that they are selecting the most appropriate thing for their particular type. That is precisely as it should be. A woman's individuality should appear in her dress, and of course it can't unless she gives sufficient thought to it."

"Women ask me, 'Can I wear those prim old-fashioned styles?' Or another will inquire, can she wear the full, short skirts that are so smart and coquettish? Of course, the answer depends on the questioner. It is surprising how it helps to talk over these things with another person."

Miss Reilly is conducting the Buttrick School of Dressmaking which is here by the invitation of The W. H. Mazey company. Pupils are already busy learning how to cut and fit their own dresses. Nobody has completed a dress yet, Miss Reilly says, there hasn't been time for that, but quite a few of the pupils are nearing the completion of their work, and the dresses really are looking lovely although they are only half made. "There is the dearest little flowered organdie that one of my pupils is making up in a pretty bolero style with one of the new sectional skirts. 'And it's going to cost me just half what I would have had to pay for it otherwise,' she remarked. 'Think of the saving, a friend said. 'Savings,' she echoed. 'Why, I am simply going to have twice as many things this summer.'"

Your Boys and Girls

Nothing is more important to a child's physical well-being than proper assimilation of food and in order that this may take place, good teeth are essential. Digestion begins in the mouth and in order to masticate the food, good teeth are necessary. As the teeth grow, they should be watched closely and brushed each night and morning. Should the first teeth show signs of decay, the child should be taken to a dentist for advice.

Brown bread should be given children. They require it for the formation of bones and teeth, as it contains phosphates of wheat. In early childhood the teeth should be cleaned with a good dental preparation or castle soap, using a cloth or soft sponge to apply same. The bristles of an ordinary brush are too stiff and apt to injure the delicate gums.

Every Day Etiquette

"I would like to know if it is proper to wear my boudoir cap to breakfast when visiting?" asked Marie. "If your hostess appears at breakfast wearing a negligee and a cap, you may feel free to do so but do not wear one if you are invited in a gown," advised her friend.

One of the most important of these is the Society of Criminology and Social Defense in Paris, which has a membership of more than 200, including many prominent representatives of the law, the police and medical profession, and it was organized to concentrate and centralize the scattered efforts of individuals who were studying this disquieting social problem and to make the results of their work available for mutual information.

Fasting and Health.

"The practice of fasting," states a medical man, "is, when wisely followed, most beneficial. I am convinced that many people never feel the sensation of natural hunger. All they have is a morbid craving for food which comes of habit rather than from any actual need felt by the stomach. Natural hunger stimulates the palate and is felt in the mouth as well as in the internal organs. It makes the plainest food seem delicious. Some unfortunate people suffer, it is true, from insufficient food, but not so many as those whose ills arise from overnutrition, their digestions being continually over strained. A habit of judicious fasting would do wonders for them. The system would recover its

state was first an independent nation. Behind the fact is this story, vouched for by tradition more or less authentic. At the outset, after achieving independence, Texas lacked pretty well everything but men. The leaders knew state papers required a great seal to validate them, and in default of anything better they improvised one from a coat button which happened to bear a single star. A document so sealed fell under the eye of an imaginative journalist. He straightway exploited "The Lone Star Republic" in print so fervid as to persuade Texas here was the device most apposite for her seal and her flag.—New York Press.

EASTERN STAR ORGANIZED AT GRANVILLE, O.

(By Mary E. Gabkee.)
The institution of Granville chapter of the Order of the Eastern Star Tuesday evening was a notable event, and it is declared to have been one of the most elaborate affairs of the kind ever held in Granville. Beautiful Center Star hall in the Masonic temple was profusely decorated for the occasion. This new chapter starts out under the most auspicious circumstances, with about 74 charter members, who are among the best citizens of the town.
Thomas Bell, grand patron of Ohio O. E. S. is in charge and was assisted by Mrs. Mary Hilliard of Lima, O., deputy grand marshal, acting as grand marshal. Mrs. Atal Griffith as grand secretary, Mrs. Aline Kent as grand chaplain, Lillian Bradley as sentinel. Newark chapter sent about 50 of its members to assist in the institution ceremony and to exemplify the work, and made a splendid showing.

The acting officers of Newark chapter were: W. M., Mary Howard; W. P., Frank Montgomery; A. M., Mary Bonds; Sec., Atal Griffith; Treas., Nellie Long; Cond., Sarah Millbaugh; A. Cond., Margaret Hall; Chaplain, Aline Kent; Marshal, Elizabeth Cayer; Organist, Della Bash; Warder, Catherine Harrison; Sentinel, Marian Bradley; Star Points: Ada, Mary E. Gabkee; Ruth, Minnie Rogers; Esther, Hanna Walker; Martha, Elizabeth Carnal; Electa, Fannie Hillier.
At the proper time a beautiful duet entitled, "Star of the East," was sung by Mrs. Irene Ditter and Mrs.

Amanda Boushore, which was enjoyed by all.
Guests were present representing Arra Chapter No. 160, Kokomo Chapter No. 89, Kokomo, Ind., Hanover Chapter No. 220, Eagan Chapter No. 123, Dayton Chapter No. 125, Trinity Chapter No. 16, Lima, O.
The officers chosen for the new chapter are W. M., Mrs. Cuma Jones; W. P., John D. Evans; A. Matron, Mrs. Florence Robinson; Secretary, Helen Ashley; Treasurer, Esther Lake; Conductress, Clara Owens; A. Conductress, Blanche Morrow; Chaplain, Ora Follett; Marshal, Mary Geach; Warder, Mary Davis; Sentinel, John DeBow; Star Points: Ada, Mabel Siegel; Ruth, Alma Tight; Esther, Alicet Chrysler; Martha, Maud Montgomery; Electa, Minnie Florry.
The occasion was most enjoyable to both members and visitors, new friendships being made, and old ones cemented.
At the close of the work the worthy grand patron and others were called upon for remarks. These were responded to in a way that implanted much zeal and enthusiasm in the order.
Granville Chapter U. D. extends a cordial invitation to all sojourning members of the order to visit with them at every opportunity. Their regular meeting will be second Friday of each month.
At the close of meeting dainty refreshments were served, the guests and members departing at a late hour.

NOTICE.
Notice is hereby given that P. S. Phillips has been appointed receiver of the Hanover Red Pressed Brick Company and all persons holding claims against said company are required to present the same on or before July 1st, 1915 to said receiver for allowance of rejection.

SENIOR CLASS NEWARK HIGH HAS EXERCISES

A number of the friends and relatives of the graduating class of 1915 of the High school assembled in the high school auditorium on Wednesday afternoon to attend the class day exercises.
The exercises opened with the class in caps and gowns marching to their places and Leland Stevens gave the president's address. He spoke of the great increase in the number of graduates from the school, how previous to 1905 the classes numbered generally about 35 and how last year's class, held the record of 107. This year the graduates number 97. But Mr. Stevens said what they lacked in number they made up in quality.
Miss Ula Hess read a very interesting class prophecy, and Miss Mina Fletcher, in the class will bequeathed many things to the faculty and remaining classes. Miss Ruth Hirst, the "class poet," recited the class poem, and Mr. Stevens, as president of the class then presented the school with a handsome Victrola and a number of records. Mr. O. J. Barnes, principal of the school, responded with a little address of thanks.

Theatres
The Great Creator.
A great concert is promised the people of Newark and vicinity Monday, June 14, when the noted Band Conductor, Giuseppe Creatore, will give the music loving people of this

community a musical treat. This organization has received the highest praise in this country as well as in Europe. The London Daily Express says: "Giuseppe Creatore, who last night made his London debut at the Queen's Hall has a magnetic control over the splendid band of sixty performers. To the spectator the irresistible impression is that they are performing involuntarily, entirely at the will of their fiery volatile conductor." The result is an incomparably fine piece of orchestration, forming the most complete possible tribute to the power of sympathetic response by the wizardry of this musician's intense temperament. Creatore seems the printed score. The program last night was well chosen to express the wonderful range of the conductor's musical magnetism. It opened with Wagner's "Pest March" from "Tannhauser." An encore in the shape of a Neapolitan March followed. They were succeeded by the faintly "Mignotto" overture, and then came a minuet by Baecherino, in which the needs achieved most telling effects. Tickets will go on sale Friday morning. Prices 25, 50 and 75 cents.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

POPE ADMIRES PRES. WILSON'S FIRM ATTITUDE

(ASSOCIATED PRESS TELEGRAM)
Rome, June 9.—Via Paris, June 10.—Jane Addams, of Chicago, chairman of the special committee appointed by the women's peace conference at The Hague to visit the capitals of Europe in an effort to hasten and end to hostilities, has left Rome for Madrid whence she will go to France and Belgium. While here, Miss Addams was received courteously by Pope Benedict, Cardinal Gasparri, papal secretary of state, Premier Salandra and foreign minister Sonnino.
Although the ministers of the Italian government listened respectfully to her peace propaganda, they gave her little encouragement. She was received with greater sympathy, however, at the Vatican, where the pope has labored to bring about peace, but even there no secret was made of the fact that the present moment was considered scarcely opportune for such a movement as Miss Addams has undertaken.
She was told by Pope Benedict that he admires greatly the firmness and serenity of President Wilson. His Holiness expressed the hope that the initiative for peace would come from America and he pledged himself to support such a proposal with all the influence of the Holy See.

IRON TRADE REVIEW.
Cleveland, June 10.—The Iron Trade Review today says:
Decided improvement has taken place in market conditions. This is due in part to the great enthusiasm

felt as a result of the decision favorable to the Steel Corporation in the dissolution suit. But there is much more than improved sentiment. Demand for war materials and for machinery for the manufacture of these materials continues to be very heavy, and general domestic demand is also showing improvement. It is now understood that the order for 15,000 cars for Russia will be signed Saturday. It will involve 200,000 tons of steel, not including the wheels and axles, which will require 60,000 tons.
Basic pig iron has increased in activity in the east. Pig iron markets generally are dull. Prices of spelter and non-ferrous metals are soaring.

NOT GUILTY OF TREASON, PLEADS GENERAL DEWET

(ASSOCIATED PRESS TELEGRAM)
London, June 10.—General Christian Dewet, one of the leaders of the South African rebellion against Great Britain pleaded not guilty to charges of high treason; but guilty to each charge of sedition at the opening yesterday of his trial at Bloemfontein, says a dispatch to the Reuter's Telegram company. The indictment against him was a long one, covering alleged rebellious acts and seditious utterances. Attorney Degager is prosecuting the case and there are three judges sitting.
General Dewet was captured December 1, 1914, on a farm at Waterburg, British Bechuanaland, where he was pursued by a motor car brigade.

DETERMINED

OPPOSITION MET BY ITALIANS IN ATTEMPTING TO FORCE PASSAGE OF RIVER

Austrians Favored by Lay of the Ground, but Dislodged by Artillery—Report from Rome.

(ASSOCIATED PRESS TELEGRAM)
Rome, June 9.—Via Paris, June 10.—Efforts of Italian troops to force a passage of the Isonzo river are being stubbornly contested by the Austrians, but are meeting with success according to a statement signed by General Cadorna, chief of the general staff issued at the war office tonight. The communication follows: "With the object of repulsing the enemy from dominating positions he still holds on the right bank of the Isonzo and establishing strong positions at the passages of the river, we continued our operation. The enemy offered a determined resistance favored by the lay of the ground and strong fortifications. Our passage was made more difficult, numerous obstacles being placed on the bridges and in the roads and also by the flooded ground along the lower course of the river. Everywhere our troops fought with ardor and tenacity and succeeded in taking important positions which enabled us to occupy the city of Montefalco. The fire of our batteries considerably damaged the enemy's artillery at a number of points.

"In the difficult region of Montenegro, a successful attack on our part led to the occupation of positions from which the Austrians fled, leaving one hundred bodies which we buried, and others wounded.

"Near Caleretto, seventy Bosnian soldiers surrendered.

"In other regions along the Isonzo, we made over 400 prisoners. Our losses were unimportant. Prisoners say the Austrian losses were considerable.

"On the Tyrol Trentino frontier, our forces continue in close co-operation their action against positions which must be occupied in order to force the enemy to disclose his defensive preparations and permit the development of ulterior operations.

"Notwithstanding the determined resistance of the enemy, our troops have approached beyond the frontier close to Falzergero Pass at the foot of the Sasso di Stral.

"A victorious action was fought ten kilometers (about seven miles) north of Cortina D'Ampezzo. A piece of artillery remained in our hands.

"In the neighborhood of Monte Croce, fighting has been going on for several days for the important position of Frickepol, which the Austrians defended desperately. Our Alpine troops definitely took it on the evening of the eighth, making one hundred prisoners."

MIDSUMMER NIGHT'S DREAM ON DENISON CAMPUS SATURDAY

The Masquers, Denison University students' new dramatic club, is planning an elaborate production of Shakespeare's fairy drama, to initiate commencement festivities.

Out-of-door performances by college thespians have found more and more favor these past years in every university community. Careful training, the unspoiled spontaneity of the undergraduate actor, the beautiful environment of most of these college plays have combined to charm their audiences.

Denison's magnificent south plaza, with its semi-circle of green hillside and its sheer arch of sky above, is an ideal place for such a poetic fantasy as the immortal Midsummer Night's Dream.

Saturday night of this week will find the fairyland of Shakespeare set down on the hill side of this university. A kindly Theseus will again admonish luckless Hermia; again the rude mechanics of Athens will plan their lamentable comedy for the wedding of their ruler; once more Puck will stir the earth in forty minutes and Bottom will win the love of Titania. Many pretty co-eds will

OF AMERICA NOT DAMAGED BY BRYAN'S RESIGNATION SAYS FRENCH WRITER

It Depends Upon the Patriotism of the People Backed by Their Confidence in Wilson.

(ASSOCIATED PRESS TELEGRAM)
Paris, June 10.—Great importance is attached by the morning newspapers to the resignation of Secretary Bryan from the cabinet of President Wilson. They express the belief that it explains the delay in answering the German reply to the first American note of protest on the sinking of the Lusitania and forecasts the contents of the second note just sent.

"It must be admitted that such a resignation and above all such a letter surprises us in Europe," says Jean Herbetie, one of the best known French writers on foreign affairs.

"It is hard for us to understand that a minister, at a time when his country was discussing with Germany so grave a question as the use of submarines against merchant ships, could part company with his chief executive and openly declare that he is in complete disagreement with him as to the methods to be employed.

"We should say this minister had not the right to diminish the prestige of his government before foreign countries, but Mr. Bryan has a double excuse. First of all, ministerial discipline must have seemed rather irksome to a man who so many times has aimed at the presidency. Then too, his departure does not in any way lessen the prestige of his government for that prestige rests on the ardent patriotism of the American people, on the deep sense of justice, honor, high character and popularity of President Wilson, and last, but not least, on the powerful fleet which President Wilson reviewed last month."

Resinol

makes itching eczema vanish

There is immediate relief for skins itching, burning and disfigured by eczema, ringworm, or similar tormenting skin disease, in a warm bath with Resinol Soap, and a simple application of Resinol Ointment. The soothing, healing Resinol balsams sink right into the skin, stop itching instantly, and soon clear away all trace of eruption, even in severe and stubborn cases.

Resinol Ointment and Resinol Soap are sold by all druggists. Prescribed by doctors for 20 years.

dance the fairy dances to the music of Mendelssohn.

No expense has been spared to make the production a satisfying one. Mr. Karl Eschman, of the Denison Conservatory, has charge of the music. Miss Bradstreet, physical director for Shephardson girls, has trained them in the dances of the fairies. Mr. Hoppe, of the public speaking department, is acting in the double capacity of director and player. Many out of town visitors are expected and it is anticipated that Saturday night will be inaugurated a new and delightful addition to the commencement traditions of this college at Granville.

HERE'S PROOF

A Newark Citizen Tells Of His Experience.

You have a right to doubt statements of people living far away but can you doubt Newark endorsement? Read it:

J. Donnelly, policeman, 19 West Harrison street, Newark, says: "For years I was a railroad and I believe that the jarring and jolting, together with exposure while sitting in the cab of the locomotive was responsible for my kidney trouble. I had pains across my back that nearly bent me double. My back felt as if it were breaking. Often my back gave out on me and if I bent over, I had a hard job to straighten up. The doctor who treated me said I had lumbago, but it remained for Doan's Kidney Pills to help me. Two boxes relieved me. I have never been without a box of Doan's Kidney Pills in my house."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Donnelly had. Foster-McMillan Co., Props., Buffalo, N. Y.

DRUGS

SUBSTITUTED FOR ALCOHOLIC STIMULANTS IS RESULT OF PROHIBITION

Wholesale Liquor Dealers are Told of Failure of Experiment in Russia and Turkey.

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, O., June 10.—The recent ukase of the czar of Russia, ordering nation-wide prohibition and prohibition in Turkey, were among the subjects discussed at the final session of the annual convention of the National Wholesale Liquor Dealers' Association of America here today.

E. F. Glacken, an importer of New York City, speaking on the czar's ukase, said:

"We are now just beginning to receive the real truth about vodka prohibition and these reports are more and more to the effect that the recent prohibiting ukase has failed even as a war measure, because of drugs substituted for a natural stimulant. It seems to me, too, that the news which is now being sent over from Russia and other foreign countries, carries with it a lesson for our own nation, which is at least well worthy of careful and thoughtful consideration. I refer to this same question of unnatural or drug substitute for a natural stimulant."

Nothing Like Sage Tea For Darkening Gray Hair.

Good Old-Fashioned Formula—No One Can Tell You Are Using It!

You can have the lustrous dark glossy hair you so much desire if you begin at once applying Sulpho-Sage. This is a dainty toilet preparation of good old-fashioned Sage Tea and Sulphur, with other helpful ingredients added. Sulpho-Sage is not a dye but works by a natural process, restoring color to gray hair so gradually and evenly that no one knows you are using it. Only a few applications are necessary to bring back the rich dark shade. Keeps new gray hairs from showing, imparts lustre and beauty and removes dandruff. Results guaranteed on W. A. Egan who sells and recommends Sulpho-Sage in Newark will give back your money. Clifton Chemical Co., Clifton Ave., Newark, N. J.

Granville

(Special to Advocate)

Granville, June 10.—The Senior recital of the Denison Conservatory brought out a large and appreciative audience last evening in Recital Hall which expressed its approval of the delightful program offered in no uncertain manner. These miscellaneous programs afford great variety in the scope of both composition and interpretation and always are interesting to the audience. The title, however, finds it impracticable, where every number was a credit both to performer and instructor, to single out any one for special notice, unless perhaps to mention the MacDowell "Concert Etude," so brilliantly rendered by Mr. Karl Crilly of Newark, who played with great assurance and keen insight. His technique was well displayed and his performance won the commendation of the musicians present. Below is the program:

Mendelssohn. Prelude in G for organ.
Miss Gladys Anderson
Mildenberg. "I Love Thee"
Miss Gladys Shener
Moskowski. "Germania"
Mr. Roland Sheets
Mr. Alfred Johnson
D'Hardot. "A Bowl of Roses"
Hildach. "Spring"
Miss Helen Ray
Fryfinger. Meditation for Organ
Miss Elizabeth Evans
Wagner. "O du mein holder Abendstern"
(Tannhauser)
Mr. Belford Chadle
Chopin. "Waltz (Posthumous)"
Miss Ethel Morris
Ware. "Joy of the Morning"
Miss Imogene Hamblen
MacDowell. "Witches Dance"
Miss Mabel Jones
Tipton. "I Were King"
Mr. Kenneth Uman
MacDowell. Concert Etude
Woodman. "I Am Thy Harp"
Mr. Nelson Tapp
Spross. "That's the World in June"
Miss Blanche Trost
Bossi. "Scherzo for Organ"
Miss Ruth Eldridge
Senior Conservatory Recital, Friday evening, June 11th. Recital Hall 8:00 p. m.

The High school alumni enjoyed one of the most delightful banquets in its history last evening, June 10 in the parlors of the Presbyterian church. The tables were beautifully decorated and the menu abundant. The scene was further enlivened by good music by senior talent. The toastmaster, well worth hearing and elicited hearty applause. Below is the program:

Toastmaster, Fred G. Smith, '02
Address of Welcome—Sarl Futurer, '14
Response—Emma McClain '17
Historian—Bertha McClary '08
Piano duet, Danse Rustique (William Mason)—Eva Wright '11, Ruth McGaughey '11
Are You a Neutral?—Prof. G. M. Stroncz
Music, III. Trovatore Waltz—Senior String Quartette
Over the Mountains—Lora Wright, '10
Alumni officers—President, Fred G. Smith; vice presidents, Evangeline Davies, Earl Futurer, Arthur Jones; secretary-treasurer, Wilkin Jones; corresponding secretary, Mamie Loyd; Homer Lyle Gayle, Helen Grace Hoov; Emma Loyva, McClain, Paul Eugene Pendleton, Stella Marie Pitts, Ruth, Mabel Inez Pratt, Charles Franklin, Reece, John Lawyer Rose, Mary Eva Wilson, Herbert McKee Wright, Edith Marie Young.

One of the important social events of this commencement season is the dinner to be given this evening at the Moundbuilders' Country club by Mr. and Mrs. Howard Darrow, complimenting the girls of Kappa Phi sorority and their men friends. Mrs. Darrow is a member of this sorority, a member of the Panhellenic conference and one of the influential society matrons of Granville.

Mrs. M. G. Street and daughter, Miss Jessie Street of Cleveland, formerly of Granville, are guests at the home of their old neighbors, Mr. and Mrs. W. P. Ullman in North Pearl street.

Several automobile parties, from various places stopped for the day in Granville yesterday, among them being Mr. and Mrs. Graves, Mr. and Mrs. Richards and Mrs. Engwerqu of Columbus.

Mrs. Engwerson of Columbus was the guest of Mrs. Anna B. Peckham for luncheon yesterday in Shepardon dining hall.

Mr. William Hobart, who left Denison last year to attend the University of Pennsylvania has been the guest of his Beta brothers for a day or two.

Mrs. J. B. Long of Council Bluffs, Ia., is visiting her son, who is to receive his diploma from Denison next Wednesday.

"The Owls," the Academy girls' club, will compliment their mothers on Saturday afternoon by a luncheon at the home of Mrs. Emswiler in Elm street.

A party of Springfield, O., people motored to Granville yesterday to renew acquaintances with the old town. Those in the party were Mr. Roger Tuttle, Misses Grace, Florence and Mary Katherine Tuttle, and Miss Maria Mason of Honduras, British Columbia.

Miss Anna Brumback is expecting commencement guests tomorrow at the persons of her cousins, Misses Margaretta and Katherine Tuttle of Cincinnati.

The production of "Midsummer Night's Dream" on the Denison campus Saturday evening by the "Masquers" promises to be one of the biggest hits in many years. Special attention has been given to scenic effects and to costumes. Novel effects in electric lighting will be employed. It will interest Newark patrons to learn that a block of 150 seats will be held for them until Friday noon. Tickets may be ordered over the telephone at Ullmans drug store.

Mrs. George Walker of Cincinnati, is the guest of her parents, Dr. and Mrs. C. L. Williams.

The men of Denison will have a

goodbye meeting on Sugar Loaf from 7:30 till 9:30 tonight. There will be a "sing" and "cats."

The Newark merchants' booster parade passed through Granville this morning and made a good showing, in automobiles decorated with pennants.

A Starving Little Mexican.

This is one of the hundreds of thousands of little peons of Mexico who have been brought to the verge of starvation by the continual fighting there for several years. The little girl is of the class of Mexicans which the President wants to help.

Failures of Soldiers' Armor.

Many years ago several inventors developed bullet proof cloths or breastplates, and in spite of much advertising their suggestions were never adopted, much to the surprise of civilians. The reason is very simple. If the bullet is stopped its energy is transmitted to the shield, which in turn delivers a blow to the soldier's body. The severity of the blow depends upon the velocity of the bullet, and if the shield is very light the chest wall receives more or less injury. In order to be effective the shield must weigh at least ten pounds.

It is a repetition of the old circus trick of striking with a sledgehammer an anvil on a man's chest. If in place of the anvil we substitute a thin metal plate the blow would be fatal, and the sledgehammer has about the same energy as a bullet at high velocity. If the shield weighs but six or eight pounds the blow of the bullet almost knocks a man down. Soldiers are not to wear armor, but to get behind it, as in armored ships, forts and motorcars. —London Tatler.

California Roads.

In his book "At the End of the Trail" E. A. Powell, F. R. G. S., pays the following tribute to California road building:

"I am convinced that if the several thousand Americans who go on annual motor trips through Europe, either taking their cars with them or hiring them on the other side, could only be made to realize that on the edge of the western ocean they can find roads as smooth and well built as the English highways or the routes nationales of France, and mountains as high and sublimely beautiful as the Alps or the Pyrenees, and scenery more varied and lovely than is to be found between Christania and Capri, and vegetation as luxuriant and hotels more luxurious than on Cote d'Azur, and a milder, sunnier, more equable climate than anywhere else on the globe, they would come pouring out in such numbers that there wouldn't be garages enough to hold their cars."

A Simple Constipation Remedy—Try It

For quick, positive relief from constipation, sour stomach, biliousness, inactive liver, bad breath, and all the ills that follow them, nothing as yet has been found to quite equal "that old, time-tried compound of may-apple root, aloes and jalap."

Recognized as one of the standard remedies, physicians daily prescribe it, many preferring it to all others, and especially calomel. They like it because, being purely vegetable, it's not nearly as harsh as calomel; it never grips; is never followed by any of the dangerous after-effects that so often result from the use of calomel.

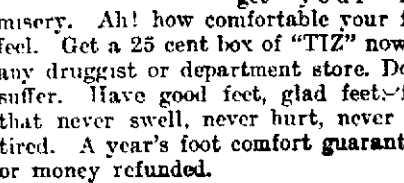

This standard remedy, ready-prepared, may now be had under the name of Santalene Laxative Tablets. Be sure you get the original Santalene Laxatives, put up in the box that has the picture of the soldier on it. In this form it is much more convenient and easier to take than in the old-fashioned powder or capsule form—cheaper, too! A 10c box of Santalene should last one several weeks. A physician's sample package (4 doses) free to any one answering this advertisement. The Santalene Remedies Co., 801 Madison Ave., Covington, Ky.

To The Big Girls Just Out of School

Wouldn't you like to take up the dressmaking course? There isn't much time left. Three high school girls came in this morning and planned their work to begin next Monday. The regular lessons are going on now and Miss Reilly is a wonderful teacher, the pupils all say.

There Isn't Much Time Left

The Butterick teachers say "The women put off enrollment until it is too late." The first week is now gone—she will be here only three more weeks. When women who do not sew, realize they can complete and make a beautiful dress under Miss Reilly's instruction, there will be a rush of enrollments. We expect to have the first gowns finished the end of this week.

This Is The Week For The Best Summer Dresses

The line is at its climax. Every summer order is filled completely and you will find a most gorgeous display of summer fluffiness. Every new style is now on display.

Beautiful nets in plain and embroidered flounges, sheer organics in all white, also in colored floral designs. Embroidery trimmed costumes with designs worked in contrasting colors; a great showing of black on white, seed voiles, the newest fabrics can be seen with floral patterns woven throughout the fabric. Tinted grounds of solid colors with the large solitaire patterns, also all the popular black and white stripes, colored dots and dotted swisses.

Obituary

Jacob Pfeifer.
Jacob Pfeifer passed away at his home at No. 67 State street Wednesday night at 11:40, after an illness of eight weeks of a complication of diseases.

Jacob Pfeifer was born in Guitshenbach, Bavaria, Germany, December 11, 1842, and came to this country with his parents at the age of seven years, locating in Zanesville, Ohio, where he spent his boyhood days.

He enlisted in Co. F, 108th Ohio Volunteer Infantry, August 20, 1862, at the age of 20 years, and was honorably discharged at Camp Dennison, May 23, 1865. At the time of his death he was a member of Lemert Post, G. A. R., Newark, Ohio.

He was united in marriage to Miss Eliza Anderson, of Zanesville, Ohio, August 8, 1867, by whom he is survived. To this union were born ten children, five of whom are left to mourn their loss: Mrs. F. J. Hobbs, Mrs. J. E. Pfeiffer, Mrs. Chas. Ahl, Fred W. Harry W., and Joseph A., all of this city. He also leaves ten grandchildren.

The deceased was a member of the Pilgrim Lutheran church of Zanesville, Ohio.

In 1872 he moved to this city, where he has since made his home. He was a member of the Cigar Makers' Union No. 176, Newark, Ohio, since 1892.

The funeral will take place Sunday, June 13th, at 2 o'clock p. m. from the home, 67 State street. The services will be conducted by Lemert Post, G. A. R. Interment will take place in Cedar Hill cemetery. (Zanesville papers please copy.)

Mrs. Mary Munyan.

Mrs. Mary Munyan, 75 years old, widow of George Munyan, died Wednesday at 4 p. m. at the home of her daughter, Mrs. Charles Waterman, at Buckeye lake of diseases incident to advanced years. Her death was not unexpected.

Mrs. Munyan was born in Pennsylvania, June 14, 1841, and came to Ohio early in life. She has been a resident of Licking county about 20 years.

She leaves two sons, Edward and John Munyan of Columbus, one daughter, Mrs. Charles Waterman, at whose home she died, three sisters, Mrs. Charles Petrie of Newark, Mrs. Clara Soustin of Somerset, and Mrs. D. B. Richardson of Newark.

The body was brought to the home of Mrs. Richardson, 100 South Fifth street, and funeral services will be held Friday morning at 8:30 o'clock at St. Francis de Sales church. Burial at Cedar Hill cemetery.

Henry Cornwell.

Henry Cornwell, a real estate dealer of Columbus, died at Utica, O., last evening at 5:30 o'clock, death being due to an attack of appendicitis with which he suffered Sunday. Mr. Cornwell had gone to Utica Saturday and closed up a realty deal and had gone to the home of Mr. T. W. Todd, one mile south of the village. It was there that he passed away. He was 67 years of age and is survived by his wife, son and two brothers. His former home was at Findlay, O., and the body will probably be shipped there this evening, his son and a brother being at Utica today making the arrangements.

the fighting against Villa at Leon, lost his right arm and narrowly escaped death by a shell while directing operations on the firing line. Consul Stillman reported from Vera Cruz several days ago it was rumored General Obregon was wounded, and it was confirmed today in the following official dispatch to the Carranza agency here:

"Obregon reports today for the first time that he lost his right arm in battle of Leon when a shell wounded him while he was directing operations on the firing line. He refused to abandon the command of his troops until victory was assured, and for this reason the wound all but cost him his life.

"When his physician told him after the battle that he was likely to die, he said: 'I am willing to give my life to my country and tell the First Chief that I feel doing my duty to the constitutional cause.' Obregon is now out of danger and, under the care of expert doctors, is improving.

"The Villaistas are being pursued and Obregon reports that they will be unable to make further serious stands against him as he marches north to Juarez. The movement against Mexico City is progressing successfully and speedily, the Zapatistas being routed in every engagement."

been sunk by a German submarine. The Tunisian's crew which was allowed five minutes in which to leave the boat, arrived here today. The vessel was sunk with bombs. The Castro's crew was picked up at sea. In this case also bombs were used by the Germans.

The submarine pursued another trawler, but the arrival of a patrol boat saved the vessel.

AMBULANCES AND ARMY MOTOR VANS DESTROYED BY FIRE

(ASSOCIATED PRESS TELEGRAM)
London, June 10.—Buildings covering three acres, 100 Red Cross motor ambulances and 200 army motor vans, all ready for delivery to the government, were destroyed by fire today when the motor works of Brian, Hughes and Strachan, at Park Royal went up in flames. The damage is estimated at \$500,000. Troops had to be called upon to assist the firemen.
